

# Sharing Original Video Content In Learning Management Systems

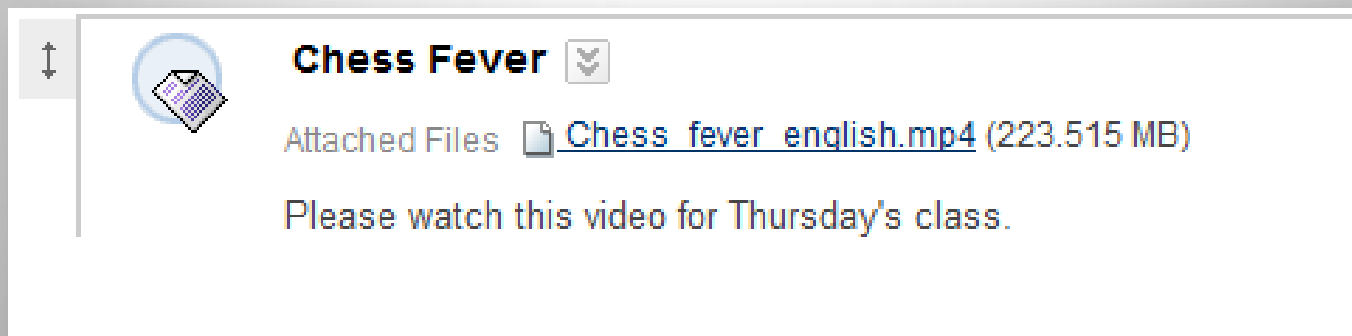

(Well, not anymore!)

Alex Karklins  
Instructional Technology Support Specialist

“Why can’t I just upload the file to my LMS?”

The screenshot shows a white rectangular box with a thin border, representing a file upload notification or error message. On the left side of the box, there is a vertical grey bar containing a double-headed arrow icon. To the right of this bar is a circular icon with a blue border and a white background, containing a purple and white document icon. Next to the icon is the text "Chess Fever" in bold black font, followed by a small grey square icon with a white downward-pointing arrow. Below this, the text "Attached Files" is followed by a document icon, a blue underlined link "[Chess fever english.mp4](#)", and the text "(223.515 MB)". At the bottom of the box, the text "Please watch this video for Thursday's class." is displayed in a blue font.

↑↓

 **Chess Fever** 

Attached Files  [Chess fever english.mp4](#) (223.515 MB)

Please watch this video for Thursday's class.

# Why not?

1. Space limitations on LMS servers
2. Requires students to download file to own computer, which can take a lot of time
3. Many files require plugins in order to play correctly across platforms (Quicktime, Flip 4 Mac, DivX, etc.)
4. Some files might not play at all!

How does streaming video work?

# What should you use?

*vimeo*

Public, web-based streaming services

or

University - hosted streaming service

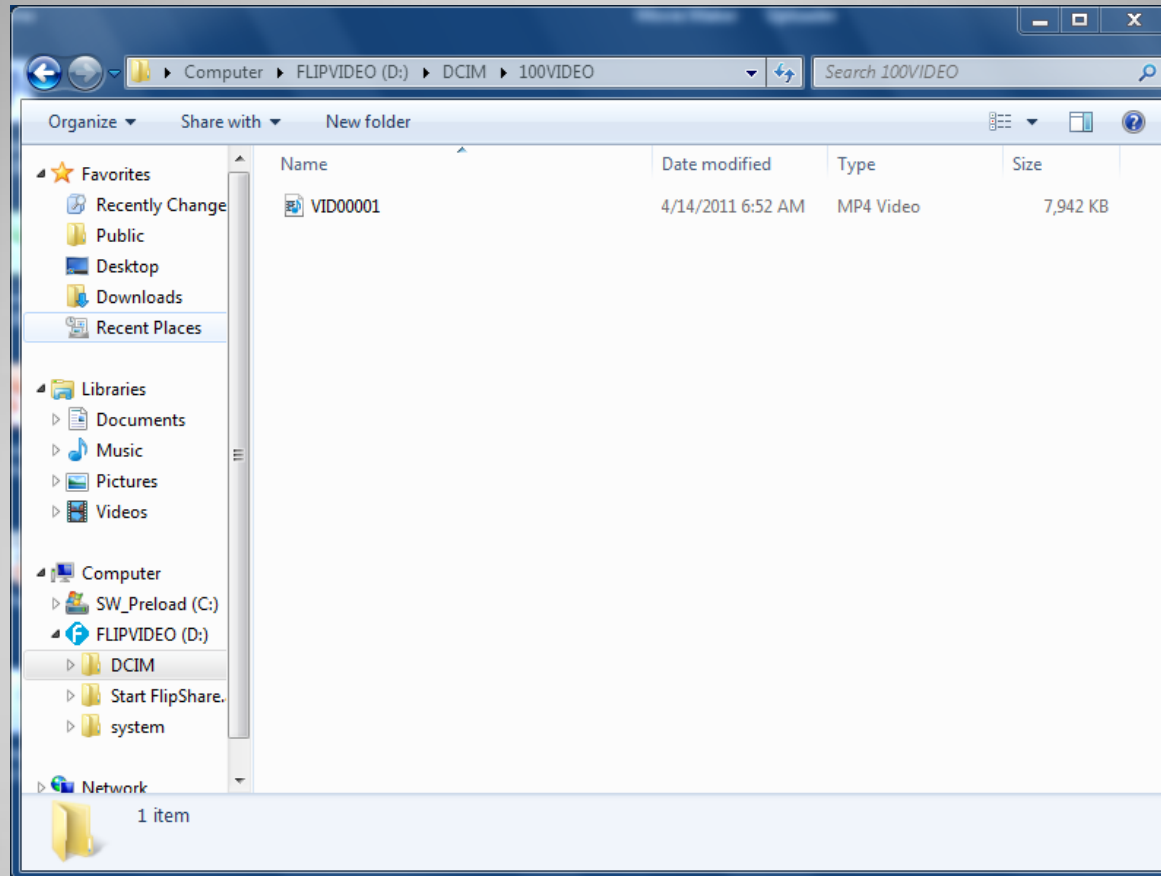

open source  
media framework

What does the workflow look like?

It is as simple as you want to make it. Here is an example:

Step 1: Shoot your  
Digital video

Step 2: After plugging your Flip Camera into your computer, locate the video file on your computer.

## Step 3: (Optional) Compress your video

Handbrake

# vimeo

Log In  
or [Join Vimeo](#)

Step 5: Select and upload your compressed Flip Camera video.

## Converting

This video is being converted right now.

A blue banner with a white plus sign icon and the text "Vimeo Plus". To the right, it says "Hate waiting in line?" followed by four features: "No waiting", "5GB / week", "Unlimited HD", and "Custom player". A blue button with the text "Upgrade now" and a right-pointing arrow is at the bottom right of the banner.

**Hate waiting in line?**

- No waiting
- 5GB / week
- Unlimited HD
- Custom player

**Upgrade now** >

11%

00:03:10 remaining

Once the file is uploaded, it will be put into an encoding queue, which may take several minutes to process.

12 minutes ago

Step 7: Copy the Embed Code for your video.

## Embed this video

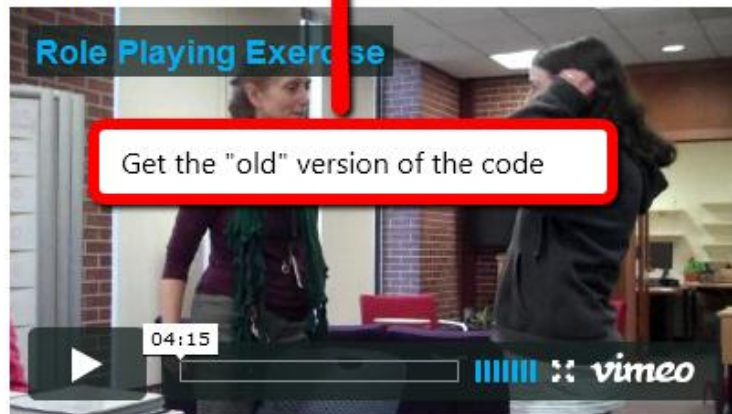

**NEW!** Try our [new embed code](#) which supports iPad, iPhone, Flash and beyond.

### Get the embed code

```
<object width="592" height="333"><param name="allowfullscreen" value="true" /><param name="allowscriptaccess" value="always" /><param name="movie" value="http://vimeo.com/moogaloop.swf?clip_id=17337565&server=vimeo.com&show_title=1&show_byline=0&show_portrait=0&
```

### Preview the embedded video

↔ This preview has been restricted to 400 pixels wide; when you embed this video, it will be 592 pixels wide.

### Customize embed options

Control your player with [Vimeo Plus](#) +

## Embed this video

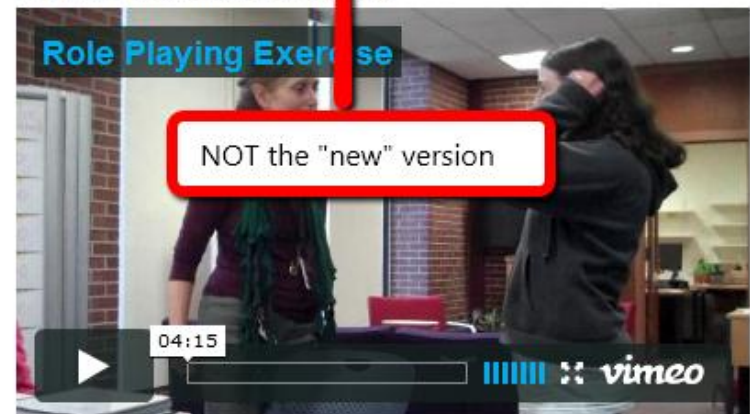

**NEW!** This is our new embed code which supports iPad, iPhone, Flash and beyond. Don't like change? Use the [old embed code](#) instead.

### Get the embed code

```
<iframe src="http://player.vimeo.com/video/17337565?byline=0&portrait=0" width="592" height="333" frameborder="0"></iframe>
```

### Preview the embedded video

↔ This preview has been restricted to 400 pixels wide; when you embed this video, it will be 592 pixels wide.

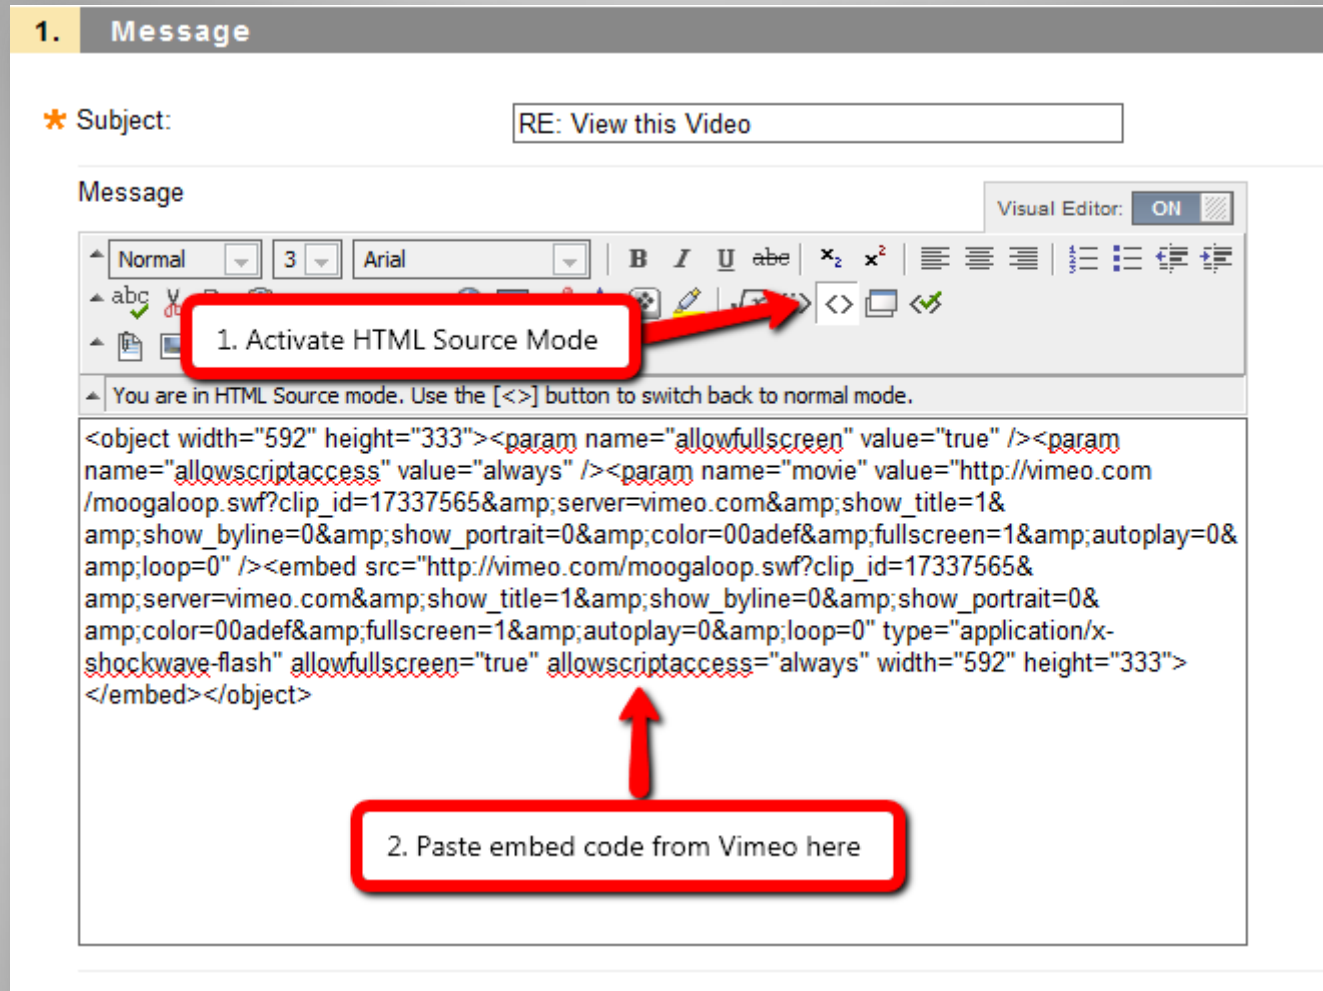

### Customize embed options

Control your player with [Vimeo Plus](#) +

Make sure to copy the correct version of the embed code!

# Step 8: Paste the code into Blackboard's Text Editor

The screenshot displays the Blackboard interface for editing a message. At the top, the subject is "RE: View this Video". Below the subject, the text editor is shown in "HTML Source Mode". A red box highlights the instruction "1. Activate HTML Source Mode" with an arrow pointing to the source code icon in the toolbar. The text area contains the following HTML code:

```
<object width="592" height="333"><param name="allowfullscreen" value="true" /><param name="allowscriptaccess" value="always" /><param name="movie" value="http://vimeo.com/moogaloop.swf?clip_id=17337565&server=vimeo.com&show_title=1&show_byline=0&show_portrait=0&color=00adef&fullscreen=1&autoplay=0&loop=0" /><embed src="http://vimeo.com/moogaloop.swf?clip_id=17337565&server=vimeo.com&show_title=1&show_byline=0&show_portrait=0&color=00adef&fullscreen=1&autoplay=0&loop=0" type="application/x-shockwave-flash" allowfullscreen="true" allowscriptaccess="always" width="592" height="333"></embed></object>
```

A second red box at the bottom highlights the instruction "2. Paste embed code from Vimeo here" with an arrow pointing up to the code area.

The Text Editor is available to students in Wikis, Blogs, and Discussion Boards. Faculty can also access the editor when creating a new item in any content area.
